SAP Experience - Summary

As an SAP SD-focused consultant, I take an active role in analysis, design, and go-live support processes in S/4HANA projects. I have experience in end-to-end sales order processes, delivery and shipment, billing, output determination, and complex pricing scenarios. In projects, I work closely with business units to clarify requirements, design solutions, and implement them in the system. When needed, I also provide support in procurement and goods issue steps that touch MM processes, contributing to the holistic progress of end-to-end processes.
